

WELCOME TO TRERAVEN FARM

Treraven is a working farm with carefully managed pastures and meadows, mature and recently planted woodlands and traditional Cornish hedges. It is managed to produce food, to be a haven for wildlife and a place for you to enjoy and engage with nature.

FARMING

Changing agricultural management has had the biggest single impact upon nature in the UK over recent decades.

69% of England's land is managed for agriculture.

NATURE

UK wildlife has been in serious decline for the last 50 years.

For example, woodland butterfly abundance has fallen by 58% since 1990.

PEOPLE

Scientific evidence shows that enjoying the countryside is good for our physical and mental wellbeing. People increasingly value their connection with nature.
